

The four exercises below come from Section 1.10 of the textbook. You are expected to attempt them immediately, before Day 02 of the course. Doing so will help you understand Day 02, and it will give you more opportunities to seek help before the exercises are due. The exercises are due, written or typed on paper, at the start of class on Day 03. To help the grader, please write your solutions in order. If your homework packet has multiple pages, then please staple it.

Exercise 1.6 (which is about two dice).

Exercise 1.8 (about having children).

Exercise 1.9 (about a sample space with four outcomes).

Exercise 1.11 (about another sample space with four outcomes).
